SKILLS & EXPERTISE

Product Design

Enterprise UX, complex workflows, user research, information architecture, interaction design, prototyping

Design Systems

Semantic tokens, component libraries, accessibility, white-label products, design governance

Visual and Brand

Visual design, brand systems, art direction, typography, illustration, packaging

AI Workflow

Figma MCP, Claude Code, Codex, AI-assisted prototyping and design-to-code

Tools

Figma, FigJam, Adobe Creative Suite, Framer, Miro

Senior product designer with 12 years of experience across enterprise SaaS, AI, healthtech and financial products. I simplify complex, multi-role workflows into intuitive products, then build the systems that help them scale. My background in brand and visual design brings a high level of craft to deeply technical products. Most recently, I led product design for enterprise AI platforms, design systems and AI-assisted design-to-code workflows.

EXPERIENCE

Allata | Dallas, TX

Manager, Experience Design • Individual Contributor | Sep 2022 – Present

Lead UX and UI designer across internal products and enterprise client engagements, owning work from discovery and product strategy through launch and implementation.

Allie, Enterprise AI Platform

- Led UX and UI for Allie, Allata's enterprise AI platform, deployed inside client cloud environments with SSO, model-agnostic AI and enterprise data controls.
- Rebuilt the desktop product around a customized component library and semantic token system, resolving WCAG contrast issues across light and dark modes while creating a scalable foundation for client white-labeling.
- Designed responsive patterns across administration, Personas, Skills and Data Products for an enterprise platform deployed at scale, with one client rollout growing from roughly 400 to nearly 1,000 active users.
- Introduced AI-assisted design-to-code workflows using Figma MCP and Claude Code, partnering with engineering teams across India and Argentina to improve implementation consistency.

Caris Life Sciences | Healthtech

- Directed UX and UI for CODEai, Caris's *clinico-genomic* research platform spanning 484,000+ matched patient datasets and more than 1 million data points per patient, used across a 99-member precision oncology network.
- Designed Assisted and Advanced experiences that gave less technical users a guided path to cohort building while preserving granular control for experienced researchers and data scientists.
- Unified filtering, cohort results, *multi-omic* visualization and export into a consistent architecture for working across complex molecular and clinical datasets.

Global Tax Management Client | Enterprise SaaS

- Led product design and strategy for a global tax-management dashboard, bringing complex multinational data and workflows into a unified experience for internal teams and external clients
- Brought key workflows to mobile for the first time, designing triage experiences and reusable patterns later adopted into the client's broader global design system.

OnXx | Dental Startup

- Ran a research-led design sprint with 16 patients and staff, translating treatment-journey insights into experience maps, personas and testable product concepts.

Redfin | Frisco, TX

Product Designer II | Nov 2021 – Aug 2022

- Led design of a Change Order system for Redfin's internal Builder Tools, replacing workflows fragmented across Slack, email, phone and Zendesk on a process affecting approximately 73% of renovation jobs.
- Interviewed 24 employees and conducted contextual research at active renovation sites, mapping the workflow across five roles and designing automated status transitions, versioning and financial calculations.
- Launched the product nationally with immediate adoption and minimal training, while designing the underlying model to extend into additional Redfin renovation workflows.

Intuit | Plano, TX

Product Designer, Visual Design | June 2016 – Nov 2021

- Established and governed visual standards and UI patterns across Intuit's ProConnect Group, consolidating fragmented design work into a system spanning product UI, web, marketing and physical experiences.
- Led packaging and visual design across Intuit's professional tax portfolio, including ProConnect Tax Online, ProSeries and Lacerte.
- Named Designer of the Year in 2018. Certified as an Intuit Innovation Catalyst, coaching cross-functional teams in design thinking and structured problem solving.

CommerceHouse | Dallas, TX

Digital Art Director | Jun 2014 – May 2016

- Delivered brand, web and digital product work for Samsung, Pizza Hut and The Dallas Morning News, and designed KERA's public-facing identity and sub-brands.

FCB Chicago | Chicago, IL

Contract Digital Art Director | Jan 2014 – Apr 2014

- Led the mobile redesign for Discover Card's main user applications (serving 1M+ users), updating the UI for iOS 7 compliance and driving user adoption rates.

ENTREPRENEURSHIP & PASSION PROJECTS

Creamwala | Plano, TX

Cofounder, Creative Director / Flavor Development | Sep 2024 – Present

- Built Creamwala's brand across identity, packaging, e-commerce, copy writing and social, creating a visual language rooted in zines and music culture rather than conventional South Asian brand tropes.
- Helped grow the business to six figures in first-year revenue and now lead the brand experience for its first retail location, spanning the physical environment, signage and packaging along with all flavor development.

Qalam | Carrollton, TX

Volunteer Brand Consultant | Feb 2025 - July 2026

- Led a comprehensive brand audit and established clear visual and brand guidelines for a large, multi-million dollar non-profit organization.
- **Mentorship:** Directed and coached a team of five creatives (designers, marketers, videographers) and collaborated with executive and donor teams to elevate cross-channel consistency across all subsidiaries.

Little Bites of Urdu

Author/Illustrator | Self-published, 2025

- Leveraged 12+ years of design and product experience to create Little Bites of Urdu, a 220+ page coffee table book that merges the Urdu language, illustration, and shared nostalgia. Drove end-to-end quality and craft, including custom typography, hand-drawn illustrations, and selection of premium paper stock, refusing to compromise on design standards.
- Sold 500+ copies with 0 marketing.
